

CRL TPC Surface Protector

- Transparent Polymer Coating
- Water, Soil, and Stain Repellant
- Protects Glass and Many Other Surfaces

Visit our web site, crlaurence.com, for Application Tips and Most Common Uses. Also Protects Sand-Blasted Glass

CRL TPC Surface Protector will actually seal the pores of glass, porcelain, ceramic, plastics, polished metals, fiberglass, and marble to make the surface water, soil, and stain resistant. The clear coating guards against the adhesion and build-up of dirt, grime, mold, mildew, rust, and mineral deposits. One fluid ounce protects approximately 15 square feet (1.4 meters square) of glass.

UNTREATED GLASS

Water does not "bead" on glass. Dirt sticks to water that dries on the glass and leaves stains.

TREATED GLASS

Water "beads" up on sealed, polished glass and easily runs off, taking any dirt with it.
